

DIAGRAM

ONCE THE PANEL RACK HAS BEEN DESIGNED, THE REQUIRED PANEL SIZE CAN BE CALCULATED USING THE DIMENSIONS OF THE PANEL OPENING.

- 1-TO THE WIDTH OF THE PANEL OPENING ADD: 2 1/4"
- 2-TO THE HEIGHT OF THE PANEL OPENING ADD: 1 1/4"

EXAMPLE:

- IF THE WIDTH OF THE PANEL OPENING IS 22", ADD 2 1/4" = 24 1/4"
- IF THE HEIGHT OF THE PANEL OPENING IS 20", ADD 1 1/4" = 21 1/4"
- THE PANEL SIZE WILL BE 24 1/4" X 21 1/4"
